You can download our information sheet with important advice for using our guest workstation here; please read it before sending us the contract:

http://www.gesis.org/fileadmin/upload/dienstleistung/daten/secure_data_center/Guidelines_for_the_Secure_Data_Center_Safe_Room.pdf

Here you will find for example how you have to proceed if you want to bring files with you - since you are working on a closed virtual machine in the SDC Safe Room, you have to send us all files beforehand. If you want to add additional data to the provided data set, you have to enter this in the contract and also send us this data in advance (at least about 2 weeks before your stay with us).

As soon as we have received the contract, we will check whether we can provide you with the data as requested. After that we will contact you to arrange a visit.
